

Hands Free Door Pull

doorwave

CLEAN HANDS = SAFE HANDS

Does the thought of germs lurking in public restrooms ever cross your mind? Are you cost conscious? Thinking of "Going Green" by doing your part to eliminate excessive paper waste? Do you find yourself needing an extra hand when opening and closing doors? We have an innovative solution for you, The DoorWave.

Recent studies show there can be more than two hundred organisms in many public restrooms. The DoorWave allows the consumer to eliminate hand on handle contact. In turn, it greatly reduces the risk of coming in contact with many sickening and potentially life threatening diseases.

*Say goodbye to
germs with the
Hands Free Door Pull*

BENEFITS

The DoorWave is a progressive solution to eliminate the need to come in contact with any surface or handle once you have washed or sanitized your hands. The DoorWave is the first solution towards the last thing you will touch in a public restroom.

SANITARY

- Eliminates the need to come in contact with any surface or door handle.
- Promotes a healthy environment for patrons and employees.
- Forward thinking and health conscious alternative.

COST EFFICIENT

- Owner cost reduction by eliminating paper waste.
- Greatly reducing owner cost by eliminating the use of paper.
- Serves as the last step to finishing the sanitary process of a "Green" restroom.

FUNCTIONAL

- A safe and hands free seamless operation.
- ADA compliant and simplifies the exiting process of a public restroom.
- Classic. Although very forward in style, The DoorWave will withstand the test of time.

The DoorWave eliminates the potential contact with infectious bacteria, by protecting the environment, consumer, customer and employee.
