

# How can we help?

Monroe offers a full-line of vendor managed inventory and customer managed inventory programs that we can customize to meet your needs.

## MONROE VMI

Our experienced field experts can help implement a Vendor Managed Inventory program that reduces transactions, purchasing, receiving and quality costs. This will also eliminate inventory outages and costly downtime while maximizing productivity. Our broad product line can help with vendor consolidation and lead to additional cost savings.

**Please contact us to find out more about the following services:**

- Field Support
- Cabinet & Bin Program
- Vending Machines
- Stock & Release
- Custom Kits & Bagging
- Kanban Bin System
- Reverse Engineering Parts
- Global Sourcing

## MONROE CMI

Let us help you take control with a Customer Managed Inventory program. We can provide the scanner, bins, labels and other necessary tools to implement. After installation, all that is left is SCAN-SEND-SHIP!

Increase efficiency, eliminate stock-outs and reduce the number of non-employees entering your facility.

## SCAN-SEND-SHIP

**Optimize stock levels**

**Deliver products to your facility**

**Monitor stock levels & fluctuations**

**Analyze requirements for a period of time**

**Little or no costs**
